Introduction

101-05284/

The statistical tables within the following pages provide both a historical reference and a more current snapshot of Canada's agricultural industry and world grain trade. They also highlight valuable information related to CWB operations and sales.

1 A residual item. Farm disappearance is computed by adding inward farm carryover and production and deducting marketings and outward farm carryover. Commercial disappearance is computed by adding inward commercial carryover and marketings and deducting outward commercial carryover and exports.
2 Human food consumption in 1998-99 amounted to 2 751 000 tonnes. In 1999-2000, the amount was 2 846 000 tonnes.
